French Minor

C'est ce qui échappe aux mots que
les mots doivent dire.
~ Sarraute

The Department of World Languages allows students to study French linguistics while providing a humanistic and scientific perspective. The program fosters awareness of international and diverse cultures, as well as opportunities for the enhancement of practical communication across linguistic and cultural boundaries. A French Minor offers an alternative for those who may not be able to double major but who would like to develop their studies in French.

A French Minor offers an alternative for those who may not be able to double major but who would like to develop their studies in French.

The intensive language study is designed to provide students with two essential components of a well-rounded education in French. First, students practice the language through conversation, composition and advanced grammar. Second, survey courses in literature and civilization educate students about the cultural aspects of learning a foreign language. A language minor is essential in an era of global economy and is an ideal complement to any degree. Proficiency in a foreign language can open many doors in all types of careers worldwide. There are numerous opportunities for students to study abroad while completing their French Minor.

Required Courses

15 total credit hours for French Minor, not including prerequisites.

Prerequisite:

FRE 1120 Beg. French I
FRE 1121 Beg. French II
FRE 2200 French III
FRE 2201 French IV
Conv. 2241 Conversation I

Required Courses:

FRE 2240 Conversation II
FRE 3420 Composition I

Electives Choices:

9 semester hours of FRE/FRW courses
on 3000-5000 level.
FRE 3230 Reading Literature and Culture
FRE 3440 French for Business
FRE 4421 Composition II
FRE 4930 Baudelaire and the Symbolists
FRW 4100 Intro to French Novel
FRW 4101 Intro to Drama and Poetry
FRW 5222 Classical Prose and Poetry
FRW 5755 African & Caribbean Literature
FRW 5934 Baudelaire and the Symbolists

Location: CPR 419

Phone: (813) 974-2548

Fax: (813) 974-1718

Geography Minor

“Without geography you’re nowhere.”
Jimmy Buffett

The Department of Geography offers a minor as an alternative for those who may not be able to double major, but who would like to develop their studies in geography. The program offers a broad education in geography and environmental science and policy.

Teaching and research themes focus on Environmental Processes and Policy; Environmental Hazards; Sustainable Communities and Vulnerability Assessment; Geographic Information Sciences; Globalization and International Development; and Urban and Regional Development and Planning.

 A Geography Minor offers an alternative for those who may not be able to double major but who would like to develop their studies in Geography. 

The Department maintains a strong international focus and undertakes research in many settings throughout North America, Africa, Asia, Europe and Latin America. The Department encourages engaged teaching and scholarship among its community partners in Tampa Bay.

It’s also home to the USF Botanical Gardens, Community Initiative Program, USF Weather Station, GIS and Cartographic Services Laboratory, as well as the Center for Brownfields Rehabilitation.

Required Courses

Total of 20 credit hours and minimum grade point average of 2.0.

Required courses:

GEO 2200 Intro to Physical Geography
GEO 200L Physical Geography
GEO 2400 Human Geography

One GEA Elective Course:

GEA 2000 World Regional Geography
GEA 3405 Geography of Latin America
GEA 3500 Geography of Europe
GEA 3703 Geography of Asia

Two upper level 3000-5000 GEO, MET or URP Electives:

GEO 3164C Research Methods in Geography
GEO 3602 Urban Geography
GEO 4471 Political Geography
GEO 4502 Economic Geography
GEO 4565 Soil Gen and Class
GEO 4700 Transportation Geography
GEO 4780 Hydrology
GEO 4930 Coastal & Marine Geography
MET 4002 Climatology
MET 4012C Meteorology

Location: NES 107

Geology Minor

“Civilization exists by geological consent,
subject to change without notice.”
-Will Durante

The Department of Geology offers a minor to provide students with a hands-on foundation in the fundamentals of geosciences. Students will be able to address major questions about the environment and natural resources. Geology is one of the broadest of all sciences because of its dependence on fundamentals of biology, chemistry, mathematics and physics as applied to the study of the earth. The program is designed primarily for students who have an interest in the subject but are not preparing for a career in the field. A Geology Minor offers an alternative for those who may not be able to double major but who would like to further develop their studies in Geology.

A Geology Minor offers an alternative for those who may not be able to double major but who would like to develop their studies in Geology.

Faculty lead the academic community in exploration of a wide range of global science questions and challenges as students participate in research projects all over the world in a variety of disciplines, including hydro geology, paleo-environmental science, karst studies, geochemistry, coastal studies, geophysics, volcanology and tectonics.

Required Courses

16 total hours for Geology Minor.

Required introductory course:
GLY 2000

Choose one of the following:

GLY 2010
GLY 2030
GLY 2038
GLY 2040
GLY 2050
GLY 2100
OCE 2201

Electives:

9 semester hours of GLY courses
on 3000-4000 level.

GLY 3311C Petrology and Geochemistry
GLY 3402C Plate Tectonics and Structure
GLY 3552C Sedimentary Record
GLY 3720C Fluid Earth
GLY 4104C Geologic Time
GLY 4554C Earth's Surface
GLY 4822C Fluid Earth II Hydrology
GLY 4866 Computational Geology
GLY 4921 Geocommunications
